ACTION ITEMS:
2020 PROPOSED BUDGET AND RESOLUTION APPROVAL
President Long called the Enterprise meeting to order to be held in conjunction with the District meeting for the 2020 Proposed Budget and Resolution approval.

Leann Noga reported the Board received the 2020 Proposed Budget on October 15, 2019. The 2020 Proposed Budget was presented to the Board of Directors and the general public at the November 21, 2019 Public Hearing. Since the November Public Hearing there has been no changes to the 2020 Proposed Budget.

There was a large increase in assessed value of property in the District for the 2020 budget period, the taxation increased 13 percent from the prior year. This poses an issue when complying with the Statutory Property Tax limitation or the 5.5 percent limitation rule (CRS 29-1-301), which limits tax revenues. The District will process a temporary mill levy rate reduction for the 2020 certification of mills to ensure that the District stays within all regulations in regards to tax revenue collections.

Final assessed valuation figures are anticipated to be received from all counties by December 10, 2019. Staff will then certify the full mill levy including temporary mill levy reductions by December 15, 2019. Because this process occurs after approval of the 2020 Budget, staff will adjust the mill levy tax revenues for the Final 2020 Budget Publication.

Mr. Goodwin moved, seconded by Mr. Edelmann, the Board approve Resolution and Order No. 2019-01DF for the adoption of the 2020 Proposed Budget as presented, and authorize the Budget Officer to make any necessary adjustments to the stated mill levies and budgeted amounts by December 15, 2019. Motion unanimously carried.

The Board members were provided the December 5, 2019 version of the 2020 Proposed Budget.

MONTHLY/QUARTERLY REPORTS:
U.S. BUREAU OF RECLAMATION
Roy Vaughan provided a written report reviewing the following:
- Imports were the third highest on record with the average at 95,722 AF. That is approximately 170 percent of our 40 year average.
- This is after 4 out of 5 years of above average imports.
- Snowpack in the collection system was well above average for all of the winter with significant accumulations into May and snow still occurring in late June.
The collection system opened May 3, runoff peaked in June, and continued into August.
- Charts illustrating storage amounts in Turquoise, Pueblo, and Twin Lakes.
- Project Reservoirs: Turquoise 122%; Twin Lakes 103%; Pueblo 121% as of November 27, 2019.
- Boustead Stored Cumulative Imports 2019.
- Arkansas River Basin Time Series Snowpack Summary – November 25, 2019
- Colorado River Basin Time Series Snowpack Summary – November 25, 2019

Reclamation is currently releasing 200 cfs from Twin Lakes and 3 cfs from Turquoise to Pueblo. Reclamation anticipates moving a total of 60,000 AF from their upper reservoirs to Pueblo. Movement of water will be adjusted according to the forecast and customer’s needs.
